ADULT OCCUPANT PROTECTION

Frontal offset deformable barrier test

9.736 p

Side movable deformable barrier test (car)

12.555 p

- GOOD
- ADEQUATE
- MARGINAL
- WEAK
- POOR

Side pole impact test (pole)

NO TEST

Bodyshell integrity (frontal) UNSTABLE

Side impact protection doors (Structural) YES

Comments

Frontal impact: the protection offered to the driver's and passenger's head and neck was good. Driver's chest showed weak protection and passenger's chest adequate protection. Driver's knees showed marginal protection as they can impact with dangerous structures behind the fascia. Passenger's knees showed good protection. Driver's and passenger's tibias showed adequate protection. Footwell area was rated as stable but not symmetrical to the passenger side. The bodyshell was rated as unstable and it is not capable of withstanding further loadings.

Side impact: head, abdomen and pelvis showed good protection, chest showed weak protection.

Side pole impact: it was not performed as this model does not offer side head protection even as optional.

ESC is not fitted as standard.

SBR is standard in front seating positions and meets the requirements. All this explained the 2 star result.

Comments

Frontal impact: The child seat for the 3 year old was installed forward facing using the adult belt and it was not able to prevent forward head exposure during the frontal impact. Neck and chest protection was weak to poor. The child seat for the 18 month old was installed rearward facing using the adult belt and it was able to prevent head exposure during the frontal impact offering full protection.

Side impact: both CRS's offered full side impact protection.

The car does not offer 3 point belts in all seating positions as standard. The marking warning consumers about the risk of a rearward facing CRS in the front passenger position fulfils the requirements but it does not offer the possibility to disconnect the passenger airbag in case a rearward facing CRS will be installed in this position. The CRS installation failed for the centre position and third row positions.
