ADULT OCCUPANT PROTECTION

Frontal offset deformable barrier test 10.510 p

Side movable deformable barrier test (car) 16.000 p

- GOOD
- ADEQUATE
- MARGINAL
- WEAK
- POOR

Side pole impact test (pole) OK

BodysheIl integrity (frontal) STABLE

Side impact protection doors (Structural) YES

Comments

Frontal impact: the protection offered to the driver's and passenger's head and neck was good. Driver's chest showed weak protection while passenger's chest showed adequate protection. Driver's and passenger's knees showed marginal protection as they can impact dangerous structures behind the fascia. Driver's and passenger's tibias showed adequate protection. Footwell area was rated as stable. The body shell was rated as stable and it is capable of withstanding further loadings.

Side impact: head, chest abdomen and pelvis showed good protection.

Side pole impact: head, abdomen and pelvis showed good protection while chest showed adequate protection.

ESC: ESC is fitted as standard and meets Global NCAP's requirements.

SBRs meet Global NCAP's requirements for the front row. Pedestrian protection proved to meet regulation UN127. All these aspects explain the 4 star result.

## Comments

Frontal impact: the child seat for the 3 year old was installed rearward facing using the ISOFIX anchorages and a support leg and it was able to prevent head exposure during the frontal impact offering full protection. The child seat for the 18 month old was installed rearward facing using the ISOFIX anchorages and a support leg and it was able to prevent head exposure during the frontal impact offering full protection.

Side impact: the CRS for the 18 month old offered full side impact protection, but the CRS for the 3 year old showed head exposure, bringing the side head protection score to zero.

The car offers 3 point belts in all seating positions as standard in all versions. The marking warning consumers about rearward facing CRS in the front passenger position fulfils the requirements. It does not offer the possibility to disconnect the passenger airbag in case a rearward facing CRS will be installed in this position. The CRS installation passed in most positions while on other positions were exempted. All these points, explain the 4 stars for child occupant protection.
